The Polish American Historical Association

The Polish American Historical Association was established in December 1942 as a special commission within The Polish Institute of Arts and Sciences in America to collect, compile and publish information about Polish Americans. In October, 1944, it was reorganized as a national American society to promote study and research in the history and social background of Americans of Polish descent. The Association, which was incorporated under the laws of Illinois in 1972, strives to assist and cooperate with all individuals and organizations interested in Polish American life and history. Contributions in support of the work of the Association are tax-exempt.
